

THE KIPP DIFFERENCE FOR STOCKTON

WE ARE KIPP PUBLIC SCHOOLS

All children should grow up free to create the future they want for themselves. Together with families and communities, KIPP is creating joyful, academically excellent schools that prepare students with the skills and confidence to pursue the paths they choose—college, career, and beyond—so they can lead fulfilling lives and create a more just world.

KIPP IN STOCKTON

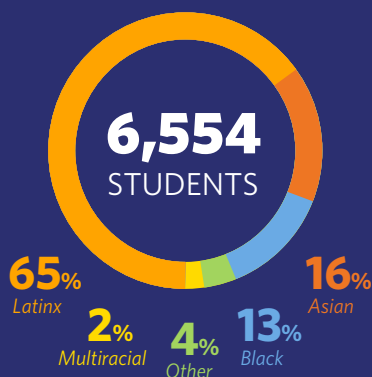

KIPP is a network of free, public charter schools, open to all students. In Northern California, there are 16 KIPP schools, which educate over 6,000 students in transitional kindergarten (TK) through twelfth grade. Building upon the successes and learnings of our previously established schools, KIPP is opening our first school in Stockton in fall 2021. Our vision is to be a part of a thriving public education system in Stockton, and, over time, work with students in elementary, middle, and high school.

MEET THE MIDDLE SCHOOL LEADER

Mrs. Kimanh Truong-Muñoz is the future principal of the new KIPP Stockton middle school. Mrs. Muñoz's passionate commitment to education is grounded in her own story as a first-generation college graduate raised by Vietnamese refugees. She's looking forward to working in partnership with the community to create a joyful, culturally responsive, and academically excellent school that puts students at the center. Ms. Muñoz is a longtime educator who has worked as a teacher, instructional coach, assistant principal, and program director for a decade. She earned her bachelor's degree from University of Wisconsin-Madison, as well as a masters in education from University of the Pacific.

OUR COMMUNITY

GRADES TK-12

76%
qualify for free or reduced price lunch

23%
are English Language Learners

10%
have special needs

OUR RESULTS

State Assessment (2018-19)

Percentage of socioeconomically disadvantaged students who meet or exceed California State Academic Standards.

	English Language Arts	Math
KIPP Northern California	56%	47%
California State	51%	40%
Socioeconomically Disadvantaged (State)	39%	27%

THE KIPP DIFFERENCE

A KIPP education helps students develop the academic skills and character strengths needed to succeed in college and life. But don't take our word for it. Check out our highlights:

94% of KIPP high school graduates go to college

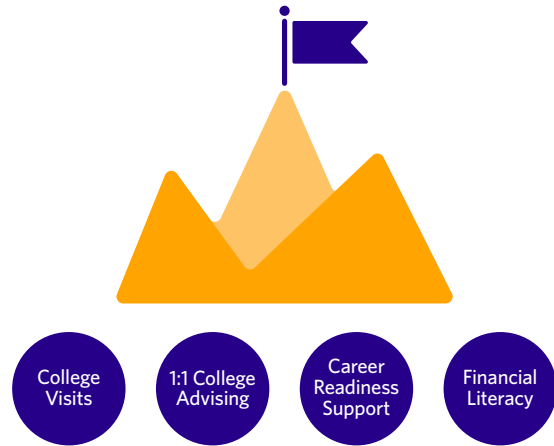

KIPP Northern California high school alumni are over **four times** as likely to graduate from college as their peers.

All of our fully-grown high schools were ranked the **#1** open-enrollment **high school** in their districts by *U.S. News & World Report*.

CLIMB THE MOUNTAIN TO COLLEGE

At KIPP high schools, students have unique access to structured support focused on college readiness and career exploration until the day they receive their college degrees.

I knew that my daughter deserved a school that would nurture and support her in learning more than she was learning. I wouldn't change anything about our journey with KIPP and everything they've taught my daughter. They are giving her the quality education she deserves.

—ISABEL OCAMPO, KIPP PARENT
